# V125 SPECIAL FEATURES

## FIX FENDER

The V-Special is available in both Fix as well as Flex fender to appeal to the personal taste of its owner

## THE DETAILS

Every detail of the V-Special is proof that it is a pure Lambretta: Head and rear lights show the Lambretta trademark while the key is decorated with the traditional Lambretta lion. A large luggage area can be found under the comfortable seat. In regards to technology, the new V-Special is up-to-date. Front and rear disc brakes provide excellent braking performance

## DOUBLE LAYER SEMI MONOCOQUE

Lambretta introduces with the V Special the double layer side panel. Constructed with exceptional steel materials, its semi-monocoque structure features a central steel beam ensuring rigidity and resilience. This is bolstered by 1.2 millimeters steel plate frame, reinforcing the body comprehensively. The semi-monocoque construction is a nod to Lambretta's rich history of innovation, ensuring that riders enjoy a scooter that's built to last and designed to impress. This construction not only enables Lambretta owners to reach their engine easily, but also avoids unnecessary added weight

## FULL LED LIGHTING SYSTEM

The Lambretta Model V brings the past into the present with its full LED lighting system, elegantly incorporating the iconic Lambretta logo within both the headlight and rear light. This design choice is more than a nod to heritage; it's a beacon of tradition, illuminating the path ahead while casting a warm glow on the memories of yesteryear. Inspired by the legendary SX series, the shapes of the lamps blend timeless appeal with modern functionality, offering a lighting experience that is as practical as it is poignant.
